CHALLENGE SHEET

Invoiceportal

InvoicePortal is a SaaS platform for managing company invoices.

DIFFICULTY	TRACK	HOST PORT	LAB ID
MEDIUM	WEB	5000	invoiceportal

EASY | **MEDIUM** | HARD | INSANE

VERIFY THE SOLVE

```
• python3 ../scripts/check.py invoiceportal
```

Brief

Northwind Traders uses InvoicePortal. One invoice has a hidden flag.

Find it.

Setup

Run these from the lab directory:

```
docker compose up -d
```

The application will be available at: http://localhost:5000/

Reset

```
docker compose down -v && docker compose up -d
```

API Endpoints

Endpoint	Method	Auth	Description
/health	GET	None	Health check
/api/auth/login	POST	None	Login
/api/users/me	GET	Bearer	Current user
/api/team/members	GET	Bearer	Team members
/api/invoices	GET	Bearer	List invoices
/api/invoices/{id}	GET	Bearer	Invoice details

Goal

Find the flag. Flag format is `duck{...}`, and verify:

```
python3 ../../../scripts/check.py .
```
